

Candle In The Wind

Elton John

[D] [C] [G] [D]

[G] Goodbye Norma Jean
Though I never [C] knew you at all
You had the grace to [G] hold yourself
While those around you [C] crawled
They crawled out of the [G] woodwork
And they [C] whispered into your brain
They set you on the [G] treadmill
And they made you change your [C] name

Chorus: And it [D] seems to me you [D7] lived your life
Like a [G] candle in the [C] wind
Never [G] knowing who to cling to when the [D] rain set in
And I [C] would have liked to've known you
But I was [Em] just a kid
Your candle burned out [D] long before your [C] legend ever [G] did

[D] [C] [G] [D]

[G] Loneliness was tough
The toughest [C] role you ever played
Hollywood created a [G] superstar
And pain was the price you [C] paid
Even when you [G] died
Oh the [C] press still hounded you
All the papers had to [G] say
Was that Marilyn was found in the [C] nude

Repeat Chorus

[D] [C] [G] [D]

[G] Goodbye Norma Jean
Though I never [C] knew you at all
You had the grace to [G] hold yourself
While those around you [C] crawled
[G] Goodbye Norma Jean
From the young man [C] in the 22nd row
Who sees you as something more than [G] sexual
More than just our Marilyn Mon-[C]-roe

Repeat Chorus

Your candle burned out [D] long before
Your [C] legend ever [G >] did
